

IMMIGRATION ACT CHANGED

Canada and U.S. Will Join to De-
port Undesirables.

Ottawa, Ap. 8.—Hon. F. Oliver has given notice of a bill which will amend the immigration act and make it more workable under present conditions. An arrangement has also been made with the United States to deport vagrants or immigrants of the criminal class within one year after their arrival in the country. The act is also more stringent regarding the class of immigrants admitted to the country.

THE LETHBRIDGE STRIKE (Lethbridge Herald)

There have been lively times at No. 3 the last couple of nights, and the mounted police have had their hands full. On Tuesday, one of the miners who is working in the mine, and had moved near the millinery, went to his old home to get his chickens. A howling crowd gathered round him, and he got some beautiful bruises before the police were able to disperse the assemblage, the women figuring as active as the men.

Yesterday a Russian appeared before Superintendent Wilson on the charge of interfering with the police in the performance of their duties. He was given fifteen days in jail.

Last night the biggest row of all occurred about eight o'clock. The police had occasion to arrest one of the miners. Some of his friends informed the village, and in a flash a crowd of several hundred congregated, carrying with them, it is said, sticks and stones. They marched in a body towards the colliery, but the police, after a hand-to-hand fight, stopped them before they reached the mine. One mounted man came along and dispersed the crowd. In the midst of this excitement two houses which had been occupied by two working miners, both of whom were summoned as witnesses in the case heard yesterday, were dynamited. They were not completely ruined, but badly damaged.

Mounted police patrolled the village all night.

It is learned that an attempt was made to burn a house in the miners' village, but it was detected in time by the police.

The conduct of the strikers prior to these disturbances has been most commendable, but they cannot expect to gain any sympathy or encouragement from law-abiding citizens if they attempt to persecute and mob men now working in the mines. This is a free country, and a man should be allowed to work if he wants to. If he wants to strike he has a perfect right to do so. Lethbridge does not want to be the scene of riots that will give it an unfavorable reputation especially at the present time, when hundreds of people are seeking homes here. It is to be hoped we have heard the last of these deplorable disturbances.

SUDDEN DEMISE OF ANTONIO PRINCE

Edmonton Old Timer Dies Yesterday of Heart Failure at His Home in This City

Antonio Prince, one of Edmonton's old timers, died at his home on Fifth street on Sunday afternoon of heart failure. Mr. Prince's death came very suddenly. On Saturday he attended to his regular round of duty as usual and retired as usual, with no symptoms of the fatal malady. On Sunday morning he was troubled with his heart, and although two physicians were called, he sank rapidly, the end coming in the afternoon.

Antonio Prince was one of the early settlers of Edmonton, a member of the old timers association, and well known throughout almost the entire northwest. He was born in St. Gregoire, province of Quebec, was educated in the college of Nicolet and studied Law in Sir Wilfrid Laurier's office. He arrived in this city in 1887 from Manitoba, and took up the legal profession in company with Chas. Lewis Shaw, the now celebrated litterateur and newspaper man. Later when Mr. Shaw went east in 1891 and the partnership was dissolved, Mr. Prince associated himself with Mr. J. C. Bown, now of Dawson, Bown, Kennedy & Hyndman, with whom he continued business for some time, moving later to St. Albert, which district he represented for one term in the Northwest legislature. From 1891 to 1894. At the close of the term Mr. Prince was appointed deputy registrar at Regina and remained there eight months, being afterwards transferred to the Edmonton land registry office, where he remained until the time of his death.

Mr. Prince leaves a wife and three children. Mrs. Prince is a daughter of Mr. George Roy, registrar of Edmonton.

The funeral takes place tomorrow morning from the family residence on Fifth street. Members of the Old Timers Association are requested to meet at W. G. Tibbols's office, at 9 o'clock sharp tomorrow morning to attend the funeral.

Xavier Soucier, inland revenue inspector, of Calgary, is in the city today on business connected with the Edmonton office.

Mr. Jones and Mr. Lyons gave the children of the Juvenile Bostonsians a treat yesterday in the way of a driving party. The little folks seemed to enjoy it very much.

Mr. Bert Lang, a member of the staff of the Juvenile Bostonsians, who has been seriously ill with pneumonia, is now on the way to recovery though still very ill. Dr. Dunn has been attending him at the Pandemonium Hotel, where he is receiving the best of care and attention.

POPULACE FLEES FROM VILLAGES NEAR VESUVIUS

Streams of Lava Flowing from Innumerable Fissures in the Mountain Devastate the Adjacent Country and Threaten Repetition of the Historic Catastrophe which has made the Volcano Famous

Naples, April 8.—Mount Vesuvius is more active than ever. The panic has spread to Naples. Two strong earthquake shocks which shattered windows and cracked the walls of buildings were experienced to-day. The entire population rushed to the streets in terror, many persons crying "The Madonna has forsaken us; the end of the world has come."

No trace remains of Basotreaea, on the southern part of the mountain, where up to forty hours ago ten thousand persons lived. Those Annunziata, on the shore of the Gulf of Naples, a mile to the southward is surrounded by invading lava and has been evacuated by its 30,000 inhabitants. The people were brought to Naples by street cars, military carts and steamships. Transportation facilities have been sent to Torre Del Greco to take away the people from San Sebastiano, a village near the observatory on the north-west declivity of Vesuvius, says the

lava is approaching rapidly and that the people are terror-stricken. They have been four nights without sleep and are said to be destitute and begging assistance. The work of succor is hampered owing to delay in the railway service which is interrupted by red hot stones thrown to a height of 3000 feet and falling on the tracks. As yet it is impossible to count the craters that have been opened and numerous streams of lava have flowed through the prosperous lands lying on the south-east shores of the gulf of Naples. The shore here is heavily charged with electricity and the flames of lightning are blinding. Churches are open all day and night and crowded with panic-stricken people. The prisoners in the jails are filled with terror and have quit their cells. The situation is critical. Breathing is momentarily becoming more difficult, because of the poisonous fumes and smoke, while ashes still fall. Though there is much misery there has been no fatalities.

Some Advantages of Canada

"A large number of emigrants from Oregon and Washington have passed through Portland in the past thirty days enroute for the newly opened agricultural districts in Canada," says an editorial in the Portland Oregonian. "Cheap land, either presented free by the Government or sold on easy terms by the railroad companies has been the principal attraction for these settlers who are leaving one of the best agricultural countries in the world for one that is possibly less desirable as a place of residence. Canada has no Carnegie or Rockefeller, grown enormously wealthy by a system of protection which robs millions to enrich a few; but it is quite clear by the official figures that her people are enjoying a greater degree of prosperity than our own people, who, it is needless to state, are, in spite of this wholesale theft of the trusts, now experiencing the most prosperous era they have ever experienced."

"Comparisons are odious," and for this reason there is nothing in the official statistics on the foreign trade of the two countries that is calculated to make the American hilariously proud. According to the figures of the department of commerce and labor our exports of the first seven months of the current fiscal year amounting in value to \$1,056,612,354 and our imports for the same period were valued at \$695,724,475, a total for our foreign trade of \$1,752,336,829. These are very large figures but it must be remembered they represent the total foreign trade of approximately 30,000,000 people, or a matter of \$22 per capita. Canada has a population of 6,000,000 people about one-thirtieth the number that participate in the foreign trade of the United States. For the seven months corresponding to those for which the foregoing figures were compiled, the exports trade of Canada was valued at \$150,834,433 and the value of the imports was \$156,260,000, a total of about \$307,000,000.

"These figures show a per capita average of more than \$51, compared with

the \$22 per capita average in the United States. In other words, Canada, new to the business with a scanty population and transportation facilities still crude in most of the territory—has in proportion to her population a foreign trade nearly two and one-half times as great as our own."

"One of the principle arguments used by the high tariff advocates in this country is that it is responsible for the 'balance of trade' in our favor. As the foregoing figures will show, there is a tremendous 'balance' of exports over imports, but it is open to question whether this can truthfully be termed a balance in our favor." It will be noted that this 'balance of trade' by applying the high tariff interpretation, is favorable to Canada, and yet her foreign trade is either imports or exports as previously stated, is, in proportion to the population more than double that of our own country. This is due to the fact that Canada does everything that can possibly be done to encourage trade and nothing to obstruct it.

"Canada produces much raw material for which there is a good market in foreign countries. She is also a heavy producer of such commodities as wheat, these commodities she buys heavily from the foreign countries with which she is doing business. There is at the present time great expansion in her agricultural industries, and she is importing large quantities of farm machinery. In the absence of tariff-protected trusts, the Canadian is permitted to buy this machinery of much lower prices than are exacted from the American farmer for the same goods, although the American must sell his grain in the same market and at the same prices as are secured by the Canadian. Down the long list of tariff-protected, trust-produced commodities, the Canadian buys at reduced prices and saves the exorbitant prices which in this country is withheld from the consumer and given to the trust. This is one of the economic advantages which Canada has over the United States and it is a powerful aid to cheap land in attracting immigration. So long as advantage exists, the foreign trade of Canada will continue to increase more rapidly in proportion to the population than will that of the United States."

STREET RAILWAY STRIKE SETTLED

Cars Started Saturday in Charge of Regular Employees.

Winnipeg, April 8.—The street railway strike has been settled and the cars all started with the former employees in charge at four Saturday afternoon. Drs. Sparling and Patrick made this announcement after a long session with the men at Friendship hall. As the mediators left the hall they were loudly cheered. They went immediately to the railway company's offices and communicated the decision that the men had accepted the terms offered. The terms of agreement ratified by both parties are as follows: The company will renege its employees in their places on the list except such as have been guilty of violence; all regular turns to be made to conform as to ten hours per day as prepared on the two turn system now in force; all cars to be swept and cleared by barn men before leaving the sheds; seniority and merit will be given preference of runs and promotion; employees will receive wages semi-monthly; conductors will be supplied with tickets and change to the amount of \$25; free transportation will be granted all employees on all lines of the company; neither company nor men will discriminate against or interfere with any employees by reason of a union; the company will be willing to discuss with the men or a committee of them any subject in the interests of the company or employees. In future all reasonable complaints or grievances will be heard by the proper officers of the company. Any employees or committee failing to get satisfaction from the officers of the company will have the right to appeal at any time to the board of directors. All regular men required to work overtime or on public holidays will be paid time and one half overtime. From April 7 the following scale of wages will be in force: 21 cents per hour for the first six months; 23 cents for the second six months; 25 cents for the second year; 26 cents for the third and succeeding years. These regulations remain in force for one year.

IMMIGRATION RUSHING

Land Office and Immigration Office Have Been Denuded of Maps and Pamphlets

Although the 587 homesteads entered upon last month broke all previous records at the Edmonton land office, and the number of actual settlers coming into the country was greater than ever before, the indications are that April will be another record breaker and over a hundred homesteads are being entered. Settlers are pouring into Edmonton at the present time in a way that is not being realized even by the people of the city themselves.

Just as an indication of what the rush amounts to, Chas. Sutter, Dominion immigration officer, stated today that no less than fifty-six men started out before 10 o'clock this morning looking for land. Nearly every one of these was an arrival of Saturday or Sunday night, and many of them represented other parties to follow. One party of eight, from Illinois, who came in Saturday night, are representing twenty families who are already on the way.

It is keeping the immigration and land office officials more than busy to handle the crowd. So great has been the demand for information that both are run out of maps altogether, except for a few German maps left at the immigration office, and on Saturday the land office ran out of township plans. The department at Ottawa has been wired for a new supply all around, which will probably be along in a few days, but in the meantime incoming settlers from Kansas or Rikysovick are supplied with the same kind of maps.

Down at the exhibition buildings, which the Government has been fixing up for the accommodation of settlers, there are fifty beds and more are being added all the time, while at the immigration office on Jasper there is accommodation for somewhere between eighty and one hundred people. Notwithstanding that nearly all the settlers are going right out as soon as they get their bearings, there has not been a single night for the past ten days when both these places were not filled to their capacity, and at the same time every hotel in town is turning away. On several occasions during the past week arrivals by late trains sometimes to the number of nearly a hundred, have had to sit up until morning until somebody would move out so that they could get a room. As the season advances the influx seems to be increasing from day to day.

ANNOUNCEMENT

We take pleasure in announcing to our many patrons that we will open for business in our new store "Norwood Block" Saturday morning, April 7, and we take this opportunity of extending to all a hearty invitation to come and visit our new warehouses.

In the afternoon from 3.30 to 5.30 o'clock Irving's orchestra will provide music for the entertainment of all who wish to visit us in our new premises.

In the evening the orchestra will play from 8 o'clock to 10 o'clock.

TOOKE BROTHERS,
MONTREAL.

ARRESTED FOR HEINOUS CRIME

Montreal Police Believe They Have the Murderer of the Ahearn Child

Montreal, April 8.—A man named Paul Bradley has been arrested on suspicion of having murdered Ida May Ahearn, a little girl of five years whose body was found in a lamentable condition in a clump of trees at Cote St. Paul on Thursday. Bradley boarded at the home of the little girl but was forced to leave because he owed \$40. Ever since it is believed that he has had a secret grudge against the family, and a fellow boarder asserts that once he was heard to say he hated Ida. He is a laboring man of a morose temperament, and although he has not been identified as the person seen with the girl the police are well satisfied with the capture.

YORK LOAN AFFAIRS.

Toronto, April 8.—Arrangements are in progress for the transfer of the assets of the Laidlaw Loan Co. to the York Loan shareholders. The Crown Attorney says he will not stop his investigations until he has acquired for the shareholders all their rights to property in subsidiary companies.

and now every train that comes in from either the south or east is crowded. This state of affairs, while most peculiar to Edmonton alone. It is a safe statement that there is not a town or village in the whole northwest today that is not crowded. Down along to line of the C. N. R. passengers say, there are cars of settlers' effects standing on every sidetrack. At Mannville, which has only had a name a few days, and has not yet got a station, there were seven cars received in two days last week. At Vermilion and Vegreville there are cars of settlers' effects arriving every day. A traveller who reached Edmonton yesterday, said that he had been travelling from Winnipeg to the mountains for fifteen years and he never saw as many trains and towns so crowded with strangers as they have been for the past two weeks. He left Winnipeg two weeks ago and in that time has slept five nights in an orthodox bed. The rest of the time a shake-down was pretty luck. All the other travellers tell much the same story, and as the fellow said of the hood snake, the finish is not in sight.

Now is the time to look it up. Our spring stock has arrived, comprising the latest patterns and designs in Axminster, Velvet, Brussels, and Tapestry. Carpets imported direct. We have a large assortment of Union, Wool, Axminster and Velvet

\$7,000, substantial house on two lots on Jasper avenue, easy terms.

NEWSY ITEMS FROM STRATHCONA

The Bulletin's Daily Budget From the Sister Town

Strathcona, Alberta, April 7th, 1906. A large representation meeting of Strathcona ratepayers was held in the town hall here last evening at 8.30 p.m. to discuss the wisdom of raising \$15,000, on the debenture system, to install an up-to-date electric light plant. Alderman Richards, acting mayor, was chairman and in a brief address outlined the object of the meeting. Mr. Taylor, electrician from Edmonton, was present and gave an interesting address on the subjects under discussion, besides answering many questions asked by several delegates. The following gentlemen took part in the discussion: Messrs. Mills, Davies, Downes, Daly, Taylor, Dr. McInnes, Thompson, Cameron, Francis and Alderman McKenna. Messrs. V. D. Mills and ex-Mayor Davies moved that this meeting endorse the council's action in asking the ratepayers to vote \$15,000 for the installation of a modern up-to-date electric light plant. This motion on being submitted to the meeting was carried unanimously. Alderman J. J. McKenna proposed that the council policy re public hospital be discussed at the present meeting. This was assented to and an animated discussion followed in which the following gentlemen took part: Messrs. Richards, Elliott, Mills, Davies, Downes, McLean, T. Richards, Dr. Hoson and McIntyre, and Mrs. Bush and Daly. Alderman Elliott gave a brief detailed statement as to what the council had already done in the matter stating that they had secured a matron and caretaker and furnished seven rooms in some of which patients were already placed, and that others were seeking admission; that they had rented the Barry House at \$50 per month, and had the privilege of renewing the lease on the same terms for two or three years; he said that the Provincial Government would contribute 40c per day for each patient and the C.E.R. would tax each of their employees in this district 50c per month for hospital maintenance. Messrs. Mills and Davies moved that this meeting fully endorse the council's hospital policy and that a public meeting be called in the near future to consider the town's future thereto.

Mr. J. T. Moore, M.P.P., and A. S. Rosenroff, M.P.E. went south on the 4 p.m. train for the Red Deer and the latter to Wetaskiwin.

Mr. Rankin of town, and Mr. C. A. Scott, of Vancouver, B.C., came in on the evening train from the south.

Mr. W. A. Broke, has had a severe attack of inflammatory rheumatism, but is recovering under the treatment of Dr. Greene.

WILL STRING 4000 MILES OF WIRE.
Free Press: That the telegraph business of Canada is growing by leaps and bounds is evidenced by the fact that the Canadian Pacific Railway Telegraph contemplate this summer the construction of 60 miles of new pole lines and 4,000 miles of which will be copper. This announcement was made by Mr. James Kent, manager of telegraphs of the C. P. R. in a Montreal interview.

With the increased facilities the company will be in a position to give rapid service between all the leading cities of the Dominion. Their wires now form a regular network from Halifax to Vancouver. It is the only telegraph system in Canada which stretches from ocean to ocean under one management. By its system Halifax can talk direct with Vancouver.

The principal new work to be undertaken is as follows: A copper wire will be erected from Montreal to Winnipeg, which can be worked duplex, two circuits; this will make four double circuits in use between these cities. A copper wire from Montreal to Toronto, worked quadruple, four circuits; this will make four quadruple wires, 16 operators each end between these cities in addition to railways and city wires. An iron wire from Montreal to Ottawa, worked quadruple, in addition to one now in use, and a cable will be laid between Prescott and Ogdensburg for railway service.

A heavy iron wire will be erected between Brandon, Man., and Strassburg, Sask. Also a copper wire between Minneapolis, Minn., and St. Paul, Minn. Two iron wires from Reston, Man., to Brandon, Man., are to be placed and

a heavy iron wire from Brandon, Man., to Regina, Sask., via Arcola, while a copper wire will be erected from Revelstoke to Ashcroft, and an iron wire thence to Vancouver, completing the third duplex wire between Winnipeg and Vancouver.

The construction of a pole line carrying two wires between Welch and Goderich will be completed, while the construction of a pole line carrying two wires will be proceeded with on the new Toronto and Sudbury route.

The construction of a pole line and one wire over the new railway branch between Reston, Man., and Wolseley, also a pole line carrying one iron and one copper wire along the extension of the railway from Sheho, Sask., west.

The construction of a pole line carrying two iron wires from Strassburg to Goderich, and from Goderich over the extension from Winnipeg to Goderich, will be placed in position.

A pole line with one wire over the extension from Reston, Man., and another with one wire on the extension of the Lander branch will be built.

In all, there will be a total of 610 miles of pole line and 4,000 miles of wire, 1,966 miles of which will be copper. In addition to the above new work there will be a large amount of reconstruction and general overhauling of the older lines. The reconstruction of telegraph lines to be carried out this year by the C.P.R. will be as follows:

Nov Scotia, 10 miles; New Brunswick, 26 miles; Maine, 27 miles; Quebec, 41 miles; Lake Superior division, 263 miles; Manitoba main line, 183 miles; branches, 24 miles; Kootenay, 36 miles; total 747 miles. It is the intention of the company to rush so that it may be completed by early autumn.

TENDERS

The undersigned will receive tenders for the erection of a three storey brick school building, for Edmonton, up to noon, Monday 16th inst. Tenders are to be accompanied by a five per cent. (accepted) cheque on a Chartered bank. Lowest or any tender not necessarily accepted.

D. DEGGENDORFER, Architect

TO RENT—Furnished room, with breakfast, on Tenth street west. Apply Box 1, Bulletin office. Dy 83-84 pd.

FAR FETCHED CENSURE

The Innisfail Province assails the Provincial Government for the expenditure of money on roads and bridges in that district previous to the Provincial elections. We are told that "For months, nay years, certain districts had asked for improvements, which they had not been able to obtain" until the Rutherford Government took up the work. The argument appears to be that because the Haultain Government had for years neglected the petitions and protests of the people of Innisfail that it was the duty of the Rutherford Government to pursue the same course of indifference. The Provincial Government will be forgiven for instituting several departures from the policy and practice of their predecessors and from none we fancy more readily than for declining to continue a policy of indifference to public needs regardless of popular demands.

CIVIC TELEPHONE PROBLEM

In tackling the telephone problem the city council confront probably the most important question which will require solution at their hands and one which in consequence should be viewed from the broadest standpoint and subjected to the most careful study. The practical situation is that the city must install a new telephone system and the question up for solution is whether this system shall be automatic or manually operated.

In this as in most problems affecting the West the future must be considered as well as the present and in this probably more than in other problems, the future rather than the present. A telephone system is a permanent not a temporary undertaking and its ultimate value to the community will depend less on its present efficiency than on its adaptability to future conditions. How great will be the change in those conditions as affecting the city telephone system may not have been fully realized even by the optimistic people of Edmonton. The settlement of Alberta, great as has been the progress already made, has only begun and promises to continue with uninterrupted rapidity for many years. This settlement will mean of necessity the birth of new towns and the development of new cities, all requiring, and all in time securing, local telephone systems. The result will be the successive establishment during many years of a series of local systems.

The question therefore which the council are trying to solve is which of the two is the system of the future? Upon the uniformity of the local systems installed depends the facility of telephonic communication between Edmonton and its contemporaries and upon this in a very large measure the realization of the hopes of establishing here the commercial metropolis of the farther west.

AMENDED HOMESTEAD REGULATIONS
(Winnipeg Free Press)

In yesterday's Free Press appeared the regulations framed by the Minister of the Interior with a view to putting a stop to the abuses which have crept into the working of the Homestead Acts. These Acts were framed at first and from time to time amended always with a view to assist the pioneer settler in acquiring possession of land to make a home for himself and his family. The enterprise of the homesteader not only benefits himself, but adds to the producing power of the district he lives in, and this scheme has been in the past the means of covering a large extent of the new west with a class of settlers of whom Canada has good reason to be proud.

But the onward march of settlement has within the last few years been going at a greatly accelerated rate of speed and many speculators from south of the boundary line have of late been coming across to handle large blocks of land in districts where free homesteading was available for all who would undertake to fulfill the necessary conditions and become British subjects. Within the last year or two agents of these speculators have been working the settlement of these free homestead lands in a way completely at variance with the spirit of the act. There is good reason to believe that many of the entries made by these agents were fictitious, sometimes covering all the best homesteads in a district with entries on behalf of imaginary persons. Such entries blocked the settlement of the districts operated on, the slick operator being however always ready to procure an abandonment of the land so entered for in favor of any one who would buy from him another quarter along side. In this way the man who had the trick up his sleeve was enabled to sell at a fancy price the land of which he had rightful control, while the man who would not deal on his terms had to stay out in the cold or go far out of reach of the privilege of entry and continuous settlement. Only the other day we had a letter from an American who came up last October with his family and outfit to take up free homesteads. He has not

yet been able to get them, the whole available homesteads worth staying on having been previously "blanketed" by this class of unscrupulous operators. The Free Press has from time to time mentioned and denounced this style of fraud, but it is more easy to expose the evil than to frame a set of regulations that will defeat the clever tricksters who have benefitted by the fraud.

We are glad, however, to believe that the regulations coming into operation on April 17, will go a long way to correct the evil, and so give a living chance to those who aim at homestead settlement by making fictitious entries all but impossible. At first sight some of these new conditions will appear a little hard on the aspirant after a new home in the west, but it is more difficult to see points than were previous regulations, these new enactments will do very much to save the free lands of the west from the harpies who have been practically "denuding" a coach and four through the regulations.

Mr. Haultain Called

In the Saskatchewan House Hon. Mr. Haultain followed the mover and second of the address in reply from the throne yesterday and in his opening remarks said that he was sorry he could not accept the suggestion of the honorable gentlemen who had just made such excellent speeches, and avoid a controversy. Things had been done which could not be passed over, and the opposition would refer to these matters in season and out of season until proper principles were established and proper methods prevailed. Mr. Haultain spoke of the paucity of the speech from the throne and said the remark of the two honorable gentlemen who had spoken contained more practical suggestions and progressive instructive ideas than the speech itself. Dealing with the speech clause by clause, Mr. Haultain said all the members of the house could join in the general congratulation on the granting of provincial autonomy, they could all join in the loyal expressions with reference to Prince Arthur of Connaught, who was shortly to visit the province, and they were all interested in and proud of the prosperity that the province and its people had enjoyed during the past year. They all, too, heartily concurred in the intention of the government to undertake the fostering of the dairy industry and were glad that railway construction was going on. With regard to railways he would have liked to have a definite pronouncement of policy, especially with regard to the Hudson's Bay company road was sorry that no reference was made to what he considered the most important matter the house would have to deal with. The proposal to legislate with respect to public libraries he considered progressive, and he hoped the negotiations with the federal authorities as to retaining the Northwest mounted police would be successful. Having enumerated the matters on which he could find no fault with the government, Mr. Haultain complained that there was no reference in the speech from the throne to mechanics liens, to legislation for the establishment of courts of justice, to the C. P. R. exemption, which he did believe should prevent the province taxing the railway, or to amendments to the election act. He did not agree with the statement that the hopes of the province with regard to provincial institutions had been amply realized, claiming that the people of the province were dissatisfied with the conditions with regard to the public lands and the settlement of the school question. The statement that the hopes of the fathers of confederation had been realized he characterized as a libel on those great men and then went on to picture the premier in consultation with the ghosts of the fathers of confederation and calling spirits out of the vasty deep to vote at the northern polls. Speaking more seriously, he claimed that the members of the government were responsible for the irregularities in Prince Albert district, saying that although he did not charge them with committing fraud or instructing other people to do so they were in the habit of canvassing with imported election crooks and travelling with them everywhere. The idea that the elections had, in the words of the speech been duly held he ridiculed greatly, and claimed that the opposition represented both the best element of the province and the majority of the people.

Premier Scott before replying to Haultain's criticisms, heartily congratulated the mover and second on their speeches, and said in all his experience as a reporter and as member of the House of Commons he had never heard their equals in the duty which they undertook and had never seen them better performed. He also referred to the importance of the work which was to be transacted by the legislature, though the fact that this was its first sitting, and to the steps which had led to the creation and inauguration of this province and its sister province of Alberta, speaking of the especial pleasure of the presence at the inauguration, of Earl Grey, coming as he did of a family closely connected with the establishment of constitutional government. In reply to Mr. Haultain's suggestions that the elections in the province had not been duly held, the Premier said that the opinion of the majority of the people of this country was contrary to that of his friend opposite. (Applause.) The character of the legislative work the government proposed to do had been indicated by the gentlemen who had preceded him, but they had other prob-

lems to solve, and previous to the opening of the house he was at Ottawa in connection with these matters. Part of his business was in connection with the transfer to the executive of the province of certain of the government buildings, and he expected, though the government house, the court house, the two jails and some other institutions would shortly be handed over. He also discussed the question of the mounted police with the authorities at Ottawa, and he was assured that there was no intention on the part of the federal government to depart from the understanding that the force should continue in existence.

Speaking of the Hudson's Bay road, the Premier said in his opinion the project was too large a one for the province to handle alone, and was of such importance to the whole of Canada that it ought properly to be undertaken by the Dominion Government, which he had reason to believe would be the case (hear, hear). The complaint had been made that several matters were not mentioned in the speech from the throne, but that fact would certainly not preclude the government from dealing with them. Mr. Haultain's many attitudes on the school question received considerable attention from the Premier, who again, as he has done many times before, exposed the inconsistency of the opposition leader, by quoting from the speeches in which he told the Roman Catholics one thing and Protestants the opposite. He also quoted Bishop Senor Perley and others to show how dissatisfied the Catholics are with the present national system, contending that this was a complete answer to the charge of conspiracy with Quebec made against the premier. He maintained that the autonomy bill in this matter was perfectly constitutional as well as just, but speaking for himself he was quite willing that the privy council should be asked for an opinion on the matter.

The Premier also dealt with Mr. Haultain's charges of election corruption, assuring the house that he was more sorry than any member of the opposition could be that abuses took place in Prince Albert district. No act of corruption by Liberal agents was however committed with the knowledge of the government, and if Mr. Haultain could give the name of a single election crook with whom he or any of his colleagues travelled either in the country or in the train he could walk across the floor at any moment.

MODERN ESTABLISHMENT

Some Facts About Semi-Ready New Shops in Montreal

(From the Gazette, Montreal.)

The Semi-Ready Company has been strengthened by the addition to its directorate of two well-known business men, Mr. Charles H. Nelson, who was for many years head of the wholesale house of H. & A. Nelson, Montreal and Toronto, and has purchased a large interest in the company and is now Vice-President. Mr. Alfred Wood, the newspaper publisher, who recently disposed of the Ottawa Free Press to a group of Ottawa contractors, has also joined forces with the company and he will be added to the directorate.

The Semi-Ready Tailoring shops in Montreal are models of the modern establishment. A new factory of five floors with a system which ensures high class workmanship is surrounded by every sanitary arrangement. The greater part of one floor is devoted to a dining room where the 350 employees may take their mid-day luncheon in comfort. A kitchen and lunch counter can be managed by the co-operation of the whole working staff.

Built according to plans prepared by Mr. Beatty, the Semi-Ready Tailors is situated in Montreal far away from the noxious factory district. It is on Guy street, near Sherbrooke, on one of the platforms from where Mount Royal begins its steep ascent. The officers of the Semi-Ready, Limited, elected at the annual meeting held a few weeks ago, are:—President, Andrew Mercer; vice-president, Chas. H. Nelson; managing director, Herbert A. Beatty; secretary-treasurer, H. A. Nelson; director, A. S. Laing. President Mercer was for many years a successful merchant tailor in Peterboro. He was one of the first business men to recognize the possibilities of the Semi-Ready system, and how surely it must displace the cruder custom tailoring methods just as the Goodyear process revolutionized the shoemaking industry.

DAILY MARKET LETTER

(Edward Woods Co.)
Edmonton, Ap. 7.—Wheat—The wheat market ruled very quiet today, holding within a narrow range. Liverpool cables were 1-8 lower. The American government crop report will be issued next Tuesday, giving the condition of the winter wheat crop on April 1st and there is a disposition on the part to the trade to await the appearance of this report before committing themselves to any extent on either side of market. It is expected that this report will show a slightly higher average condition of the crop as compared with a year ago. As the present price of wheat is from 30 to 35 cents less than it was at this time last year, we believe the improved crop conditions have been fully discounted and we do not expect to see much, if any further decline in prices, but on the other hand we believe that unfavorable conditions in the way of dry weather or other causes could easily start a good advance in prices, and we advise the purchasing of wheat around present prices. The close today was 1-8 cent lower than yesterday.

MANITOBA FARMER SUICIDES
Portage la Prairie, Apr. 7.—Edward Lee, a farmer living about five miles from Oakville committed suicide last night by hanging himself. He was found hanging from a beam in the barn by one of his children. He was 55 years of age. He came from England eight years ago and has been farming near Oakville. He leaves wife and four children. The reason for his rash act is not known.

CAMBRIDGE WON.

London, Ap. 7.—Cambridge won the university boat race by eighteen minutes.

Selling Off!

Fertile Farm Lands Near Alberta's Capital

Leduc, 26 miles south of Edmonton, on the C. & E. Railway is noted for its rich agricultural lands, and large production of wheat and oats, of first-class quality. Cattle-raising and dairying are also important industries, and large quantities of butter and eggs are marketed at this point. The country is partly wooded, and there are large coal deposits in the district; also abundance of water at from 12 to 30 feet in depth. There are numerous lakes, one being partly within the town limits. Fish and game are plentiful.

Homestead lands may be obtained at a distance of 26 miles from town. Other lands range from 36 to 340 an acre. The town itself numbers upwards of 400 inhabitants, principally Canadians and Americans, and is now applying for incorporation. Among the business establishments are a chartered bank, 3 grain elevators, 2 grain warehouses, creamery, pork-packing house, flour mill, planing mill, general stores, hardware stores, also hotels and 4 churches. Telegraph and telephone systems.

Cattle marketed in 1905, 600.
Hogs, 700.
Coal, 1000 tons.
Butter, 150,000 pounds.

Correspondence invited and may be addressed to

Advertise in the Bulletin---It Pays**YUKON COUNCIL**

Free to Extend its Own Money as it

Thinks Well Regardless of
Ottawa

Mr. Foster brought up again the Hatfield contract for rainmaking in the Yukon and said he was entitled to information about this from Mr. Oliver. In reply Mr. Oliver said that if the Opposition took the stand of not allowing the vote to pass until the information was forthcoming the issue might as well be fought out as Mr. Foster was wont to express it "here and now." The Opposition of the Government was that having been given a legislature with power of taxation the Yukon was entitled to expend the money they raised without interference from the Dominion Government, no matter what opinion the Dominion Government might have upon the subject.

Mr. Foster: "Do you speak for the Government?"

Mr. Oliver: "I do. I take the stand that the Yukon council shall be free to express its own best judgment in the expenditure of its own money. If the Opposition disapproved of such expenditure, let them send their disapproval to the Yukon council."

Mr. Foster insisted that Ottawa had the right to view this expenditure and said it was an insult to tell the Opposition to telegraph the Yukon. He appealed to Sir Wilfrid Laurier, who had just entered the House. Sir Wilfrid expressed surprise at Mr. Foster's attitude. The Dominion Government could not be held responsible for the action of members elected by the Yukon as the council was an independent body. He could not be one to censure the Yukon council on account of Mr. Foster.

HOTEL COLLAPSED.

Nagold, Black Forest, South Germany, April 6.—The Hotel zum Hirschen "The Stag Hotel" collapsed today while the guests were at lunch. The bodies of several dead persons have been brought out and many other victims are still in the ruins.

Discussed Fruit Growing

Dr. Clendenen, Provincial Health Inspector, returned yesterday from Ottawa, where he had been attending a convention of fruit growers and shippers of the Dominion. The convention had been called by Hon. Sydney Fisher, Minister of Agriculture of the Dominion, for the purpose of discussing and considering means and methods of producing fruit, the packing of fruit, freight rates, transportation, the best probable markets for the fruit, and the question of experimental farms. The convention was largely attended, delegates from all over the Dominion being present. The tendency in the eastern provinces, especially in Ontario the doctor said, was to pass the Province of Alberta up as an impossibility as a producer of fruit.

But the Doctor was given an opportunity to say something for his province at the convention and in a speech, short but to the point, showed the delegates that Alberta, although she had not made a great showing as yet, was by no means an impossibility as regards fruit growing.

The convention recommended Dominion Legislation in all matters discussed, and at the conclusion of the convention, Dr. Clendenen and Mr. Hamilton, the other delegate from Edmonton, obtained an assurance from Hon. Mr. Fisher that whatever was done by the Government for other provinces would be done for Alberta also.

The Doctor attended another equally important convention in Ottawa, that of the Association for Prevention of Tuberculosis. This was also largely attended. The main object of this association is to educate the public as to what tuberculosis is, and impress them with the fact that it is an unnecessary disease, and show them how it can be gotten rid of. The convention was called to discuss the best means of getting rid of the disease. Senator Edwards was chairman of the Convention and Rev. Dr. McLeod, of Ottawa, was secretary. It was recommended that more local associations be formed to affiliate with the Dominion association. A committee was also appointed to approach the Ontario Government with a view to building a provincial sanatorium.

The Doctor casually remarked that he had to get back to Alberta to see any seeding operations going on. Nowhere in the east had the farmers commenced their seeding as early as in our own province.

Our third shipment has just arrived of the very best Canadian-made wheels, the Massey-Harris. This wheel is made for style and durability. Stands first against any other make of wheel for strength. It is fitted with cushion frame, coaster brake, cushion handle bars, best roller chain and Massey-Harris hanger, the best ever turned out in the bicycle series. We also have the Brantford and Imperial bicycles. We carry the best assorted and up to date line of sundries ever carried in Edmonton for years. Call and get prices before buying elsewhere. Open every evening for inspection.

Something Strong and Durable

So most mothers reason about boys' clothes. If the suit wears well, is rugged and durable, that's good enough. For it doesn't matter about style. How about both? You pay for the wear here and get the style thrown in. These boys' suits are made like men's suits:—

Boys' Chalk Striped, all wool, Tweed suit, up to size 36,

5-50

Boys' Grey Tweed, all wool

5-75

Boys' Black Serge Suit, double breasted

6-00

Boys' Striped Tweed Suit, double breasted, up to size 29

3-50

Boys' Buster Brown Tweed Suits

2-75

COMMISSION MERCHANTS

LOCAL

In order to reach the News or Editorial rooms of the Bulletin, ring up Phone No. 450

—The Juvenile Bostonians at Robertson's hall tonight.

—The Legislature resumes sittings this afternoon at four o'clock.

—Prof. Riddell conducted services in the Methodist church at Olds yesterday.

—Rev. T. C. Buchanan will preach in Grace Methodist church Sunday evening next.

—The schools of the city will close on Thursday afternoon for the Easter holidays.

—The retail merchants' association will hold its regular meeting to-morrow night.

—The W. C. T. U. will meet on Wednesday afternoon at 3.30 o'clock in McDougall church.

—The Edmonton Public School Board meets on Thursday evening in Mackay avenue school.

—The Ladies' Aid of Queen's avenue church will hold a birthday social on Thursday evening.

—The Epworth League of McDougall Methodist church will hold a devotional meeting to-night.

—The glee club of the Young Men's Liberal Club will practise this evening in the club rooms.

—Dr. O. F. Strong has moved into his new offices on the second floor of the Norwood block.

—The regular meeting of L. O. L. No. 1784, will be held in Unity hall, Sandison block tonight.

—J. M. Sissons, of the East End drug store, will shortly move into new premises, next A. F. Bigger's fruit store.

—The plan for Jimmie Pax & Co. is open to-day at Archibald's drug store. The concert is on the 16th.

—Rev. E. H. Burgess, of High River, occupied the pulpit of First Presbyterian church at both services yesterday.

—A heavy shower on Saturday evening was a welcome visitor to the Edmonton district and should help start the crops.

—The Alberta College baseball team went to Strathcona on Saturday afternoon and defeated the Strathcona High School team by a score of 12 runs to 11.

—A small fire at the corner of May and McDougall streets called the fire brigade out at 12 o'clock last night. The use of only one Babcock was necessary to suppress the blaze.

—The Juvenile Bostonians will continue to appear this week at Robertson's Hall on Monday, Tuesday and Wednesday evenings. For the remainder of the week they will go to Strathcona.

—The Juvenile Bostonians were greeted with a house packed to the doors at the matinee on Saturday afternoon, when they presented the comic opera entitled "Tina," which they had previously given on Tuesday night.

—Arch. Mitchell, of Macleod, formerly of the Dominion Forestry branch, has been appointed chief weed inspector for Alberta, and arrived in the city on Saturday night to assume his duties at the Department of Agriculture.

—An addition of 100 lines is being put to the municipal telephone system. The two units of 50 each which have been ordered for some time are overdue and should be here within the next day or two. There are 470 telephones now in use on 450 lines, and applications in for 40 more.

—A pretty little work of art, the special design of Howard Stutchbury, was the menu card for the luncheon given the Prince on Friday. The work was done in blue and gold, on deckle-edge paper, embossed, and as nice a piece of typographical art as has been produced in Alberta. The printing was the product of the Bulletin job department.

—William F. Graham, of Dundas, is registered at the Alberta. He will leave the city today in charge of a Grand Trunk Pacific survey party, which will go west. Mr. Graham has been on G. T. P. survey work for three years, and came up to Edmonton from Fort William, where he had been working on the division between Fort William and Winnipeg.

—The Douglas Book & Stationery Co. opened up in their new stores Saturday evening. They now have the hand-some book and stationery store between Winnipeg and the coast, and carry a heavier stock than any store of the kind between Toronto and Vancouver. The store is lighted with arc lights. Fifty feet will shortly be added to the premises at the rear as a piano and organ warehouse.

—The ice in the Saskatchewan is fast disappearing and large patches of clear ice are visible. The largest open space is just above the bridge, where all the ice cutting was done during the winter. Along the banks of the river the ice has gone, and now only a solid narrow strip remains. Last year about the sixth of April the ice commenced to go, but the river was not entirely free for many days. This year it has commenced a little earlier, but it will still be some time before the stream is again flowing with a clear course.

The water has not risen, consequently the ice has not evinced a tendency to break up suddenly and block up around

the bridge. It is disappearing very slowly. The Clover Bar Nursery Co. of which R. Easton is the manager, has just issued a neatly printed price list of trees, shrubs, plants, etc. The Clover Bar Nurseries were established in the year 1896, but made little headway at first, as there was no demand for shrubs in the city. The nurseries have been conducted as a sort of experimental farm, to test the growing of trees, shrubs, and various fruits in Alberta. That they have succeeded in not only growing these plants, but have also created a demand for them amongst the public is evidenced by their extensive and varied list of all kinds of plants and shrubs, as well as fruits. The little booklet just published also gives suggestions as to planting, recipes for spraying, and various other suggestions as to the growing of plants and fruits.

SOCIAL AND PERSONAL

F. W. Kent, of Calgary, is registered at the Alberta.

R. G. Scott, of Mannville, is registered at the Windsor.

H. B. Evans, of Vermillion, is registered at the Grand View.

Malcolm Campbell, of Leduc, is registered at the Imperial.

Geo. M. Christie, of Calgary, is registered at the Penderina.

Dr. J. K. Barrett, of Winnipeg, is registered at the Queen's.

Mrs. J. N. Bolton, Fifth street, will not receive tomorrow (Tuesday).

W. F. Graham, postmaster, of Dundas, Ont., is in the city, registered at the Alberta.

A. F. Johnston, proprietor of the Revelstoke Herald, is registered at the Windsor.

Dr. Gillespie, of Lindsay, Ont., arrived in the city yesterday and is registered at the Alberta.

A. J. Gordon and Mrs. Gordon, of Winnipeg, came in yesterday on the C. N. R., and registered at the Penderina.

W. B. Sherman, manager of the Calgary opera house, who has been in the city for the past week, left for the south yesterday.

J. T. Muirhead, clerk in the Provincial treasury Department, leaves this afternoon for Regina to accept a position under the Saskatchewan Government.

Mr. and Mrs. John Mack and their sons John Mack and William Mack, arrived yesterday on the C. N. R. from Scotland, and are registered at the Penderina.

Mrs. A. J. Gordon, of Winnipeg, who arrived in the city yesterday in company with Mr. Gordon, will be the guest of Mrs. Riddell at Alberta College for a week or so.

J. Wallace McDonald, barrister, formerly of the firm of Tupper, Phippen & Tupper, of Winnipeg, arrived in the city last week, accompanied by his wife and son, and will practise his profession here.

JUVENILE BOSTONIANS

Owing to a general request for a few more nights of the Boston Juveniles and the serious illness of Mr. Bert Lang, the electrician of the company, they will remain three more evenings, presenting "Gay-go" to-night, "The Rajah of Pazzala" Tuesday and "Gee-Whiz" Wednesday night.
